

MY ROAD TO CW 2.0

FROM EVIDENCE TO PRACTICE: GOAL ACHIEVEMENT IN CW 2.0

We will look at what is known about adult capabilities, adult learning, behavioral science, and goal achievement and its implications for how we help our participants set and achieve their goals. Together, we will experience a practical, comprehensive framework for goal achievement that is built on evidence and demonstrate how staff can use this framework to deliver services in a more intentional, goal-directed way.
