Webinar 10: Using the County-Level Guide to Improve Implementation

Webinar facilitator
Natasha Nicolai, Mathematica Policy Research

Intent for Webinar 10
Our intent is to offer information and resources on the tools within the County-Level Guide to help improve your county's implementation of CalWORKs 2.0.

Achievements: During the webinar we will…
- Examine how the guide can help you with implementation
- Discover how each tool fits into a continuous quality improvement (CQI) process
- Take a first step in developing or improving your county's CQI process

Before the webinar
Take a few minutes to think about what you already do to promote CQI. Jot down a few notes here.

During the webinar
Check the tool you are most interested in learning about and use this space to make notes.

☐ County Self-Assessment   Notes:
☐ County Resource Map
☐ Introduction to County Goal Setting
☐ Choosing Frontline Tools
☐ Staff Skills and Attributes
☐ Fidelity Assessment Tools

After the webinar
1. Write down a next step for your county to begin developing or improving your CQI process.

2. If you participated as a team, compare notes as soon as possible after the webinar and determine your next steps while the creative thoughts are still flowing.
